Another achievement for Heez, the ultimate control solution for Beverage Coolers

*Heez has been appointed as a finalist for the
AHR Innovation Award in the Refrigeration category*

Manheim, PA. October 7, 2017 - HEEZ, CAREL's complete control solution for beverage coolers has been recognized by AHR Expo and its co-sponsors, ASHRAE and AHRI, as a finalist in the Refrigeration category of the 2018 AHR Expo Innovation Awards Competition. The panel of professionals selected for their knowledge and expertise in HVACR found HEEZ worthy of this recognition.

"Shortly after the incredible success of the HEEZ market launch in Europe, South America, and Asia, we are proud to acquire this relevant industry recognition on our way to the AHR Expo where HEEZ will be launched for North America" commented Alessandro Greggio, Group Head of Marketing for Carel's Retail and Refrigeration teams.

HEEZ success and benefits had previously been awarded with the prestigious World Innovation Beverage Award in the Best Environmental Sustainability Initiative at Drinktec 2017 and witnessed by third parties and clients independent testing.

"We are sure that the HEEZ will bring amazing benefits to our customer base of OEMs and beverage companies in North America" stated Martino Manfrin, CAREL USA CEO. "The DOE's strict energy efficiency requirements can be matched and surpassed by leveraging on CAREL's technology. HEEZ includes a new generation of DC rotary compressors and Armilla, CAREL's Cloud Services offering."

The AHR Expo Innovation Awards is an annual competition that honours the most inventive and original products, systems, and technologies showcased at 2018 AHR Expo.

CAREL will present HEEZ and its latest cutting edge technologies for the HVAC/R market at AHR Expo in Chicago in South Hall, Booth 5377.
