join the future!

CAREL Graduate Programme

JtF is dedicated to young graduates in Engineering, with an excellent university career, aged 27 or over.

# Join The Future 4

Embark on your professional development with JTF, an experience that will help you acquire new skills across the board, in a highly dynamic and innovative environment!

Over a period of seven months, you will be able to test your skills in different business areas, under the supervision of a dedicated tutor, and discover your aptitudes. You will be asked to work on group projects aimed at stimulating teamwork skills and strengthening knowledge of operational processes and methodologies for their continuous improvement, adopting a Lean Thinking approach and tools.

You will also have the chance to experience CAREL's international and inter-cultural nature, working for a period at one of our 22 foreign subsidiaries: an opportunity to further boost your professional and personal skills.

CAREL is an Italian multinational tech company listed on the stock exchange, in rapid growth and with a historic passion for energy efficiency. Our mission is to drive the evolution of control technology for air-conditioning, industrial and commercial refrigeration, and humidification. Our main feature is innovation, investing annually about 7% of sales in R&D, an area that employs almost 20% of our personnel, as well as committing a further 3% to improving production technology.
